Healthcare Science

Note: This fact sheet does not include the program specific curriculum. To access the curriculum from the program's webpage, click one of the links below the section titled "Degrees Offered."

*Students must have an Associate of Arts or Science and work in a healthcare field.

Many individuals with an associate degree currently working in a health care field want to further their education to move beyond direct care delivery or to attain future career goals. The Health Care Science degree allows the student to tailor a study plan to meet individual career goals in one of three major focus areas: education, business or psychology/sociology.

DEGREES OFFERED

- Bachelor of Science in Healthcare Science

PROGRAM INFORMATION

The delivery method of course materials is in a traditional classroom setting. Classroom learning will encompass faculty, student, and guest presentations. Readings will explore current issues and practices within health care environments. Students will utilize background from the major and their own disciplines to complete projects and the practicum course, permitting a sharing of common issues and differences and faciltating an understanding of the complexity of today's health care environment. Some online learning will be integrated.

Research opportunities

All students will complete a research course within the Health Care Science curriculum. Research data related the health care issues will be encountered across the curriculum. All students engage in a final project within the final Practicum course.

Additional information

Students with Associate of Science or Arts degree will articulate into the University having met general education requirements with the exception of 6 hours of philosophy and 6 hours of theology. Students will work with an advisor within their discipline to complete a plan of study. The Health Care Science degree is a Continuing Adult Program (CAP) and is offered at $305/credit hour.

//

EXPERT, ACCESSIBLE FACULTY

The Healthcare Science program consists of a group of carefully selected scholarly and professional practitioners who creatively introduce students to emerging theory and current best practices.

Newman Graduates regularly cite close collaboration with talented, dedicated faculty as one of their most meaningful experiences at Newman.

Newman faculty members are more than just leaders in their field. They take an active and personal role in students' studies and progress, forming strong relationships with students through coursework, special projects and informal out of class discussions.

ACCREDITATION

Newman University is accredited by The Higher Learning Commission of the North Central Association of Colleges and Schools, www.ncahigherlearningcommission.org.

FINANCIAL AID

With many scholarships, grants, work-study and company tuition assistance programs available, the cost of a degree from Newman University is comparable to that of state universities.
