

Guide to
Local Wichita Area Health Care Resources

2010-2011

This booklet is a project supported by the Newman University Student Affairs Office.

It is in response to the needs expressed by current students for a health care facility on campus.

While researching the possibilities of having such a facility on campus, we “discovered” the local health services offered at a short distance to the main campus and at low cost.

Also, many more services are offered at these sites than a university of Newman’s size can offer its students.

We hope this information serves you well.

Office of Student Affairs: 316-942-4291, ext. 2308

NOTE: Insurance coverage varies widely. Please be sure to check with your insurance carrier to find out if they will pay for service.
