

Curriculum

Dual Degree Program in Biology and Medical Technology

A dual degree program in biology and medical technology is offered to students who complete the general education and major requirements for a bachelor of arts degree with a major in biology at Newman and then transfer to Wichita State University to complete a bachelor's degree with a major in medical technology. Credits from the medical technology program at Wichita State University will be accepted as transfer credit to allow students to meet the total hour requirement for a bachelor's degree from Newman.

Please refer to the Newman University Catalog for details. After admission to Newman University, your Newman advisor can help explain program and university requirements.
